

# RADIOTHERAPY IN BRAIN TUMORS: Complications, Edema and Clinical Decision-Making

RESPONSABILI SCIENTIFICI

**Marta Scorsetti**  
**Giuseppe Lombardi**

## OVERVIEW

Advances in molecular diagnostics, imaging, immunotherapy, and systemic treatments are reshaping the management of primary brain tumors. Glioblastoma and meningioma remain clinically challenging diseases with significant unmet needs. This webinar brings together international and national experts to discuss emerging diagnostic and therapeutic strategies, including immunotherapy, precision medicine approaches, advanced imaging, and real-world clinical experience, with the aim of supporting evidence-based and personalized care in neuro-oncology.
